SCHOLARS DAY

Important: *ALL Le Moyne students pursuing independent research projects are invited to present work on Scholars Day. It is not necessary to have been funded by the Student Research Committee to participate in this important day.*

Students, mark Friday, April 19th on your calendar and invite your family and friends to do the same. The Student Research Committee and the office of the Provost and Academic Vice President, Dr. Linda Le Mura are calling for your participation in the 8th Annual Student Scholars Day celebration of student creative and scholarly activities. Scholars Day takes place on Friday, April 19th in the Curtin Special Events & James Commons areas of the LaCasse Dining Center. This will be a day-long event with refreshments, including lunch.

Scholars Day showcases student scholars from a broad representation of disciplines across the college. Students from across campus who have received funding support from the Student Research Committee and the Provost will be presenting their work, and we enthusiastically invite other students who have done scholarly work such as departmental and integral honors thesis projects and/or independent research, as well as other creative student-produced work, to propose innovative and creative ideas for presentation.

We strongly encourage student scholars to invite their families and friends to attend! We also invite representatives from area high schools, alumni, and others to join us at this event and experience the excellence of Le Moyne students.

Students who wish to present should visit the Scholars Day home page <http://www.lemoyne.edu/LinkClick.aspx?link=1345&tabid=1344&mid=3193> for proposal submission instructions. The deadline for proposals is **Friday, March 1**. Please contact Jennifer Gurley, Chair of the Student Research Committee, with questions.
