Dear Student:

Congratulations! As Nurse Manager of the Wellness Center for Health and Counseling I would like to welcome you as a new member of the Le Moyne Community.

I need to call your attention to the following ***critical items***:

- New York State Public Health Law Sections 2165 and 2167 require proof of specific immunizations for all students. In addition, Le Moyne College requires all First Year students to provide proof of a recent physical exam conducted within the past year. The enclosed ***Immunization and Health Report*** must be submitted and approved by ***June 14, 2014.***
- If the required ***Immunization and Health Report*** is not received by Le Moyne College by **June 14, 2014**, the student will incur a **$100 non-refundable fine** that will be placed on their account. In addition, residential students will not be allowed to move into their residence at the college until this record is received. Lastly, New York State law requires the college to de-register all students who are not in compliance with this regulation, and they will be unable to attend classes.
- The enclosed original ***Immunization and Health Report*** form must be returned by mail or in person. Please find the postage paid self addressed envelope in the folder pocket of this manual. ***No faxed copies will be accepted.*** Copies of the ***Immunization and Health Report*** can also be found at www.lemoyne.edu/wellness
- Insurance Requirement
  All full time undergraduate students are ***required*** to have a health insurance policy, and to carry a current insurance card at all times. Le Moyne College offers a CHP Student Health Insurance policy through Haylor, Freyer & Coon, Inc. that is reasonably priced. The student will be automatically billed for this policy. If the student has other health insurance that will provide medical coverage while residing in Syracuse, the Le Moyne Aetna insurance ***charge can be waived***. Instructions for waving the Aetna insurance will be forthcoming with the tuition bill. The waiver process must be completed ***by September 15, 2014 for the Fall term.*** More information on the insurance plan can be found at: www.haylor-college.com/lemoyne or by calling 1-800-289-1501.

If you have general questions regarding the **Health Report,** or our services please contact the Health Services Office at 315-445-4440. If you have questions regarding **immunizations** please contact Cynthia Daniels at 315-445-4442 or danielcm@lemoyne.edu.

The health and safety of our students is very important to us. These medical records provide us with the foundation for good health care during your college career. I appreciate your full cooperation with these requirements.

Sincerely,

Cynthia Daniels, RN, BSN
Nurse Manager

Health History Requirements

As a new student, you must submit this completed Immunization and Health History form upon admission to the college. This form is the foundation of your medical record at Le Moyne College. This record is reviewed by The Wellness Center for Health and Counseling, and if necessary referred to the College physician for evaluation. It is then filed for reference to be used whenever a consultation for illness or a conference for health appraisal takes place. **All information is confidential and will be used only by the Wellness Center for Health and Counseling**. You have been accepted to the college, and information you provide on this form <u>will not</u> be used in any way to influence your status at Le Moyne College. It is important that you fully disclose <u>all</u> health and mental health conditions.

If you are enrolling for the fall semester the Immunization and Health Report is due <u>June 14, 2014</u>. If you are enrolling for the spring semester the Immunization and Health Report is due January 10. If the Immunization and Health Report is not received by the aforementioned deadlines, the student will incur a *<u>$100 non-refundable</u>* fine that will be placed on their account. In addition, residential students will not be allowed to move into their residence at the college until this record is received. Lastly, New York State law requires the college to de-register all students who are not in compliance with this regulation, and they will be unable to attend classes.

**** THIS FORM MUST COMPLETED BY STUDENTS WHO HAVE NOT HAD THE MENINGITIS VACCINE ****

MENINGITIS WAIVER RESPONSE FORM

New York State requires that you be informed about meningococcal illness and why it is dangerous. Briefly, it is a bacterial infection that is potentially life-threatening. It often begins with symptoms that can be mistaken for flu, but unlike more common infections it can get worse very rapidly and can cause death in as little as 24 – 48 hours. It can also cause permanent disabilities such as amputations, scarring, hearing loss and brain damage. It is spread from person to person by droplets that are released by coughing or sharing eating utensils, or kissing. While anyone can get this disease, college students living in residence halls are at modestly increased risk for meningitis and may wish to consider vaccination. While the vaccine does not eliminate the risk of meningococcal illness, it is very effective in protecting against 4 of the strains of bacteria including the strain most commonly found on college campuses. More information including our meningitis policy is found on Le Moyne College Health Services website (www.lemoyne.edu/wellness), and can also be found at the CDC website (www.cdc.org) or at the American College Health Association website (www.acha.org). You can also speak with your physician regarding this important decision.

New York State Public Health Law requires that **all** college students complete and return this form to Le Moyne College Health Services. **All students** must complete this form and have it on file in the Student Health Services office by ***August 12*** for the **fall 2014 semester** and by ***January 13*** for the **spring 2015 semester**. Students will be held out of class and will not be able to register for any further classes until compliance is achieved.

Check the statement and sign below.

I have (for students under the age of 18: My child has):

___ read, or have had explained to me, the information regarding meningococcal meningitis. I understand the risks of not receiving the vaccine. I have decided that I will not obtain immunization against meningococcal meningitis.

Tuberculosis Screening – <u>MUST BE COMPLETED</u>

1. Does the student have signs or symptoms of active tuberculosis disease? Yes____ No____
   If No, proceed to 2. If Yes, proceed with additional evaluation to exclude active TB including Tuberculin skin testing, chest X-ray and sputum evaluation as indicated.

2. Is the student a member of a ***high-risk group?** Yes___ No___ If No, stop. If Yes, proceed with skin testing. A history of BCG vaccination does not preclude testing of a high-risk member.

3. Tuberculin Skin Test (Mantoux only and within past year)
   Date given (month, day, year): ___________ Date read: (month, day, year)_________
   Result (in actual mm induration) __________
   PPD manufacturer, Lot # and Expiration date: __________________________________

4. Chest X-ray (required if tuberculin skin test is positive)
   Results: Normal _____ Abnormal _____ Treatment: ____

*Categories of **high risk** students include those students who have arrived in the past 5 years from countries where TB is endemic. It is easier to identify countries of **low** rather than high TB prevalence. Therefore, students should undergo TB screening if they have arrived from countries ***EXCEPT*** those on the following list: Canada, Jamaica, St. Kitts, and Nevis, Saint Lucia, Virgin Islands USA, Belgium, Denmark, Finland, France, Germany, Greece, Iceland Ireland, Italy, Liechtenstein, Luxembourg, Malta, Monaco, Netherlands, Norway, San Marino, Sweden, Switzerland, United Kingdom, American Samoa, Australia, or New Zealand. Other categories of high-risk congregate settings such as prisons, nursing homes, hospitals, residential facilities for patients with AIDS, or homeless shelters: and those who have clinical conditions such as diabetes, chronic renal failure, leukemias, or lymphomas, low body weight, gastrectomy and jejunoileal by pass, chronic malabsorption syndromes, prolonged corticosteroid therapy (e.g. prednisone>15mg/day for >1 month) or other immunosuppressive disorders.
