Chairman of the Board duties involve working with management of credit union, supervision of president/CEO and consultation for strategic short term and long term operational decisions. Institution holds approximately \$150 million in assets. In 2016 led effort to hire and transition new President and CEO as well as CFO. New president/CEO replaced the retired president/CEO after a 34-year tenure. This transition involved my personal management of many employee issues as they adjusted to the change in leadership and management structure after 34 years. I successfully led the transition with no loss of staff, and the profitability of the credit union has since significantly increased under the management of the new president post transition. The first NCUA review of our credit union under the new president also earned high marks in terms the quality of management and the board.
