

## Checklist for Academic & Residential Technology

This checklist is to help you prepare for the fall semester. Listed are technologies that are needed for academic and residential life on campus. For more information regarding online and academic resources, visit <https://echo.lemoyne.edu/Ready-to-Learn-Online>.

### Academic Technology:

❑ Review the **Student Orientation and Resources** course on Canvas (<https://canvas.lemoyne.edu>) to explore and practice using the most essential technologies for the Le Moyne classroom experience prior to your first day of classes.

#### ❑ Laptop

Follow these recommended specifications for a personal computer.

- 7th Generation Core i5 processor
- 8GB of RAM
- 256GB Solid State Drive (SSD)
- 1920 x 1080 (Full HD) Display
- Currently Supported Windows or Mac Operating System
- Active and Current Security Software

#### ❑ Optional Technology

We recommend students using computers ***without*** integrated webcams and/or microphones consider acquiring additional devices to best support their technology.

The following are recommended specifications:

- *Max Resolution: 720p/30fps*
- *Focus type: fixed focus*
- *Lens technology: standard*
- *Built-in mic: mono*
- FoV: 60°
- Universal clip fits laptops or monitors if webcam is not part of computer set up.
- *If you need to use a Le Moyne computer in a public lab, we support 3.5mm headphone jacks.*

### Residential Technology:

#### Gaming Consoles & Personal Devices

Gaming Devices that are compatible with our network ***must*** be connected via a wired Ethernet\* connection. Laptops and Desktops may be connected to the wired network. Continue reading for the "Do" and "Don't" brings for what devices are compatible on our network!

\*Ethernet cables are not provided by IT and cannot be loaned to students for personal devices

## Compatible Devices

- ❑ Playstation 4s (Slim, Pro, etc.)
- ❑ Playstation 5
- ❑ Wiis (Original, Wii U)
- ❑ Smart TVs *with an ethernet port*
- ❑ Windows/IOS Computers *with an ethernet port*

### **Register your Ethernet Compatible Device**

- To register your device and use a wired ethernet connection on campus, visit [deskreg.lemoyne.edu](https://deskreg.lemoyne.edu) and register the device's physical/wired MAC address.
- If you cannot find the physical/wired address of your device, **contact the IT Service Desk with the name of your device and your residence hall!**

## Not Compatible Devices

- ❑ NO Personal Printers

Le Moyne provides public printers in residence halls, academic buildings, and the library. Personal wireless printers are not supported or permitted on Le Moyne's wireless network.

- ❑ NO Wireless Routers

Do NOT bring a personal wireless router. They are in violation of the campus information security policies, and will be disabled by IT.

- ❑ NO Smart Home Devices / Streaming Devices

Any Smart or Streaming Device has to be connected via a wired Ethernet connection. These devices will NOT work on the wireless (wifi) network.

- ❑ Devices that are **NOT** Ethernet compatible, including but not limited to:

- Nintendo Switch
- Roku
- Google Chromecast
- Amazon Firestick
- Amazon Alexa/Echo Products
- Google Home Products
- ***Any other gaming system, Smart Device, or streaming device that depends on a wireless internet connection***

## **Contact the IT Service Desk:**

If you have questions or need assistance with your compatible device, please contact the IT Service Desk by creating a service request (<https://servicedesk.lemoyne.edu>), sending an email ([servicedesk@lemoyne.edu](mailto:servicedesk@lemoyne.edu)), or calling (315) 445-4579!
