

Checklist for Academic & Residential Technology

This checklist is to help you prepare for the fall semester. Listed are technologies that you will need for academic and residential life on campus. If you are a fully remote and online student please visit <https://echo.lemoyne.edu/Ready-to-Learn-Online> for more information.

Academic Technology:

Review the **Student Orientation and Resources** course on Canvas (<https://canvas.lemoyne.edu>) to explore and practice using the most essential technologies that are used as part of the Le Moyne classroom experience before you arrive to campus.

Laptop

Follow these recommended specifications for a personal computer.

- 7th Generation Core i5 processor
- 8GB of RAM
- 256GB Solid State Drive (SSD)
- 1920 x 1080 (Full HD) Display
- Currently Supported Windows or Mac Operating System
- Active and Current Security Software

Webcam

Recommended Webcam specifications:

- Max Resolution: 720p/30fps
- Focus type: fixed focus
- Lens technology: standard
- Built-in mic: mono
- FoV: 60°
- Universal clip fits laptops or monitors if webcam is not part of computer set up.

Headphones with a microphone

If you need to use a Le Moyne computer, we support 3.5mm headphone jacks.

If circumstances do not allow you to obtain the devices listed under Academic Technology, Campus Life may be able to help. Contact Campus life at campuslife@lemoyne.edu or visit <https://www.lemoyne.edu/COVID-19/Jesuit-Fund> to learn more.

Residential Technology:

Coax (TV) and Ethernet Cables (Computer)

We recommend 25 foot cables to provide the most flexibility in setting up.

Ethernet Adapter & Cable

Gaming Devices must be connected via wired ethernet

Laptops and Desktops may be connected to the wired network, but may require an adapter if not included.

❑ NO Personal Printers

Le Moyne provides public printers in most residence halls and all academic buildings. If you have a printer, you must directly connect it to your computer. Personal wireless printers are not supported or permitted on Le Moyne's wireless network.

❑ TV with Clear QAM Tuner or a Converter Box (Visit <https://echo.lemoyne.edu/Personal-Technology> for more information.) Smart TV's must be connected via ethernet (wired) connection. These will NOT work on the wireless (wifi) network.

❑ Register a Computer, SmartTV (with Ethernet port) & Game System (with Ethernet port)
To register your device and use a wired ethernet connection on campus, visit deskreg.lemoyne.edu and register the device's physical/wired MAC address.

❑ NO Wireless Routers

Do NOT bring a personal wireless router. These devices interfere with the campus wireless network and will be disabled by IT. They are in violation of the campus information security policies.

❑ NO Smart Home Devices / Streaming Devices

Always double check with the IT Service Desk to verify that your device is compatible with Le Moyne's network. Any Smart or Streaming Device has to be connected via a wired Ethernet connection. These devices will NOT work on the wireless (wifi) network.

Devices that are NOT compatible on the campus wireless (wifi) network:

- Nintendo Switch
- Roku
- Google Chromecast
- Amazon Firestick
- Amazon Alexa/Echo Products
- Google Home Products
- Any other gaming system, Smart device, or streaming device that depends on a wireless internet connection

Contact the IT Service Desk:

If you have questions, please contact the IT Service Desk at <https://servicedesk.lemoyne.edu>, email servicedesk@lemoyne.edu, or call 315-445-4579.
