

FNP required Health and Immunization Documentation for Clinical placement

First Fall semester

New students are required to upload documentation into CastleBranch in order to be cleared for clinical placement. This process of uploading, including links and directions, will be discussed at the FNP Orientation on the first day of classes.

The uploading to CastleBranch this fall is separate from the uploading to the LMC student portal which you completed this past summer in order to start at Le Moyne.

Please be sure to have all of these documents available. These documents **MUST** have provider's signatures and legible dates.

Required documents for Clinical Placement
1. Health Assessment/Physical Form
2. Proof of Personal Health Insurance Coverage
3.
