#### PACKRAT Correct Scores in Specialty Areas

Second Year Test Takers Prior to Graduation\*\* Physician Assistant Clinical Knowledge Rating and Assessment Tool (PACKRAT) provides national data and comparative statistics. This peer-reviewed exam is written by PA educators. The program's outcomes can be used to identify strengths and weaknesses by clinical specialties and tasks.

## Goal 2: Interpersonal & Communications Skills

Students must demonstrate interpersonal and communication skills that result in effective information exchange with patients and their families, physicians, professional associates, and others within the health care system. Cultural competence and diversity proficiency are inherent components.
